Dynamic Kids

Dynamic Kids_Reception

- 💰 **Term Fee:** 5,300 THB
- 👕 **Kit Requirement:** Must wear shorts / appropriate clothing for physical activity.
- ★ **Opportunities:** N/A
- 🎫 **Additional Cost:** N/A
- 📖 **Description:** Dynamic Kids is a fun, movement-based program designed specifically for Reception-aged children, helping them develop the physical skills, coordination, and confidence they need to move, play, and participate in sport with greater control.

Children will work on skills such as: body control & awareness, balance & coordination, movement patterns, neuromuscular connection, object control, confidence & independence, strength & physical literacy.

Most importantly, Dynamic Kids is about helping children feel confident in what their bodies can do. Rather than focusing on competition or performance, sessions encourage exploration, effort, and learning through movement.

Our goal is to give every child a positive foundation for an active lifestyle — helping them become more confident, coordinated, capable, and comfortable in their own body.

Dynamic Kids_Years 3 to 6

💰 **Term Fee:** 6,500 THB

🧥 **Kit Requirement:** Must wear shorts / appropriate clothing for physical activity.

★ **Opportunities:** Kids competitions

💵 **Additional Cost:** N/A

i Description: Dynamic Kids is a fun, movement-based program designed for the next stage of a child's physical development. As children grow, the focus shifts from simply learning how to move towards developing the physical qualities that prepare them for sport, school, and everyday life.

The program uses General Physical Preparedness (GPP) principles to build a broad foundation of strength, coordination, fitness, mobility, balance, and body control. Children are exposed to a variety of movements and challenges that help prepare their bodies for the demands of different sports and activities — without specialising too early.

Children will develop key physical qualities including: strength & stability, coordination & movement skills, balance & body awareness, speed, agility & reaction, object control, mobility & movement quality, work capacity & resilience, confidence & physical preparedness.

Rather than preparing children for one specific sport, Dynamic Kids develops a broad range of physical abilities that can transfer across many sports and everyday activities. Whether it is running on the playground, carrying a school bag, climbing, playing football, swimming, jumping, or learning a new sport, the aim is to help children feel physically prepared and confident.

Our goal is to build well-rounded, physically literate young people who have the strength, coordination, confidence, and movement skills to take on whatever physical challenges come their way.
